

Sudipta Biswas

WEB DEVELOPER | SOCIAL MEDIA MANAGEMENT | AI AUTOMATION

+880 1908-399534 | sudiptabiswas119@gmail.com | Dhaka, Bangladesh

sudiptabiswas99.github.io | github.com/sudiptabiswas99 | linkedin.com/in/sudipta-biswas

Computer Science and Engineering graduate. Builds websites and web apps, produces short-form video and AI UGC ads for social media, and writes Python automation tools.

SKILLS

Web: HTML, CSS, JavaScript, Node.js, Express, Three.js, Leaflet, Git, Vercel; TypeScript, React, Next.js and Tailwind CSS (basic)

AI and Automation: Claude Code, Playwright, Apify, Airtable, Kie.ai, Nano Banana Pro, Gemini Omni, Seedance 2.0, Chatterbox

Data and ML: Python, SQL, pandas, NumPy, scikit-learn, XGBoost, LightGBM

Social Media and Video: Instagram, TikTok, LinkedIn, Threads, X, Skool; ManyChat, Zernio API, Canva, FFmpeg, faster-whisper

Networking: TCP/IP, routing and switching, VLANs, SSH

Languages: Bengali (native), English (professional)

EXPERIENCE

Web Developer

Independent

- Built 63 websites and demos: 32 redesigns of real local businesses (7 trades, plus 25 spa and wellness sites live on Vercel), 18 niche templates and 13 demos
- Added the 18 templates and 6 premium variants to a third-party website kit
- Coded draggable before/after sliders into 9 builds, JSON-LD business schema with ratings into 16 and Leaflet service-area maps into 4
- Developed a rule-based chat widget with no dependencies, used on 72 pages in business or design-demo mode
- Built an Express 4 booking backend for a plumbing demo with route, controller and service layers, Zod validation, Nodemailer and rate limiting
- Wired an A/B test for the hero CTA and a stats dashboard into the same server

AI Automation Developer

Independent

- Built a 5-agent Claude Code website team (director, designer, writer, builder, critic) on a third-party skill, with an AI writing scanner and a browser checker
- Wrote a Python CLI that scaffolds production folder structures for new web projects
- Cloned Airtable base schemas through the Metadata API with a Python script paced for rate limits
- Set up Airtable content workflows that schedule posts through the Zernio API

Lead Generation

Independent

- Pulled 27 Austin-area med spas with Apify and qualified 23 from Playwright screenshots
- Built a redesign demo and drafted an outreach email for 16 spas, tracked in an Airtable pipeline

AI UGC and Video Ad Producer

US home-buying company; Bangladeshi software company (freelance)

- Scripted 17 AI UGC ad concepts and produced 3 finished cuts of 21 to 23 seconds
- Generated avatars in Nano Banana Pro, talking clips in Gemini Omni and Seedance 2.0 via Kie.ai and a cloned voice in Chatterbox; cut, captioned and mixed in FFmpeg with stock b-roll
- Made a 16-second faceless Bengali video ad from the software company's site footage, with an edge-tts voice

Social Media Manager

US creator brand in AI and developer tools

- Wrote and fact-checked 33 reel scripts based on reference reels and GitHub projects
- Produced and edited 20 vertical 1080x1920 reels with word-synced captions and screen footage
- Rebuilt a deleted ManyChat auto-reply flow and wrote 24 DM guides for a comment-keyword funnel
- Tracked 13 competitor Instagram accounts, modeled 20 scripts on their best reels and picked topics from post analytics

- Made LinkedIn carousels for the owner's profile and scheduled AI image posts to Instagram, Threads, TikTok and X
- Helped run the brand's Skool community and edited 3 lesson videos of 2.5 to 3.5 minutes each

ADDITIONAL EXPERIENCE

IT Network Intern

Dec 2025 to Mar 2026

IT Division of a commercial bank

Dhaka, Bangladesh

- Helped document IP ranges, tunnel endpoints and routing for the bank's dual-tunnel branches in Excel
- Practiced tunnels, inter-VLAN routing (router-on-a-stick), SSH/Telnet access, and static and RIP routing on a 27-PC network in Cisco Packet Tracer

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript, Three.js*

Sep 2026

- Built a black-and-white portfolio with 3D elements on GitHub Pages, tested in Chromium and WebKit

IQ Exam Web App | *HTML, CSS, JavaScript*

Jun to Jul 2026

- Coded 4 pages from a supplied design document: landing, test, dashboard and admin

SaaS Product Scope | *Planning only*

Aug 2026

- Wrote a 17-page scope document and a PRD, drew 4 diagrams (architecture, user flow, activity, class) and designed 4 landing-page concepts

EDUCATION

American International University-Bangladesh

Graduated Apr 2026

B.Sc. in Computer Science and Engineering

Dhaka, Bangladesh

- Co-wrote a 4-author thesis on diabetes prediction for Bangladesh that benchmarked 15 classifiers on 5,288 DiaBD patient records
- Handled a 14.5 to 1 class imbalance with SMOTE, ADASYN and SMOTE-ENN; implemented Particle Swarm, Ant Colony and Harris Hawks optimizers from scratch with the team
- Completed coursework in data structures and algorithms, databases, computer networks, operating systems, software engineering, web technologies and machine learning
